Request Rate Quote through Misely

Last Revised Date: 07/10/2023

1. Select Scenario

From within a client (**Clients**), add the different **Loans** for the scenarios you'd like to run the comparison on.

Click the loan scenario that you want to get MI pricing for.

Click the **Mortgage Insurance** tab.

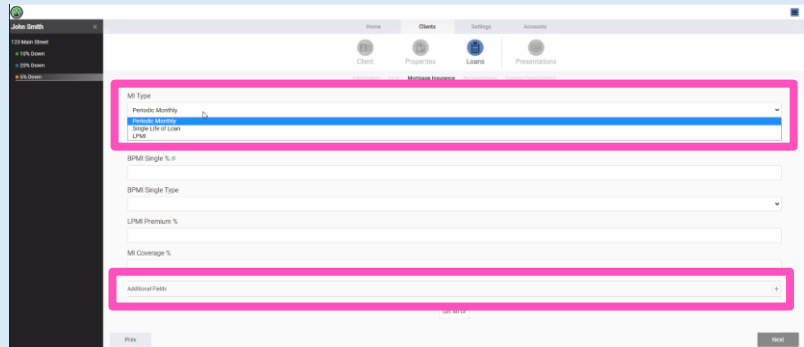

2. Order Rate Quote

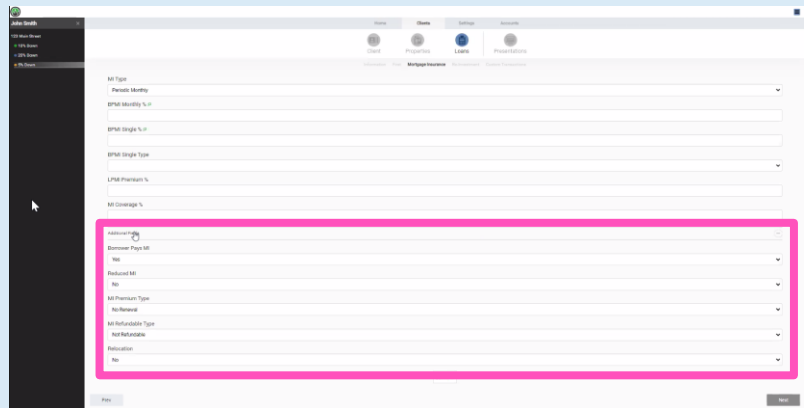

Select the **MI Type** applicable from the drop-down list. The available **MI Type** options are:

- Periodic Monthly
- Single Life of Loan
- LPMI

Note – There are additional fields that impact MI pricing and eligibility. Click the **+** icon to view the **Additional Fields** section.

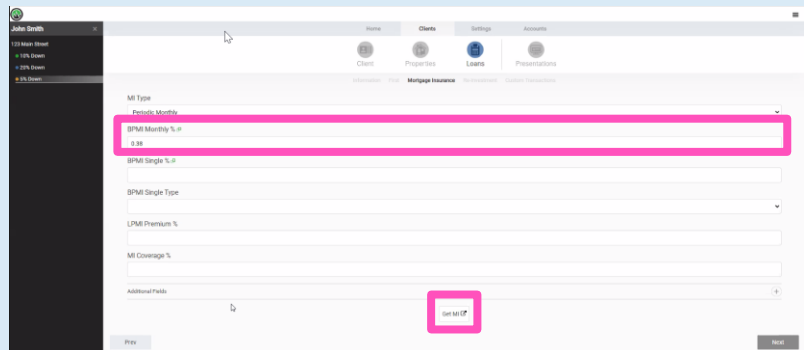

The **Additional Fields** section shows defaulted information. Edit the default values as necessary.

Click the **Get MI** button to get MI pricing.

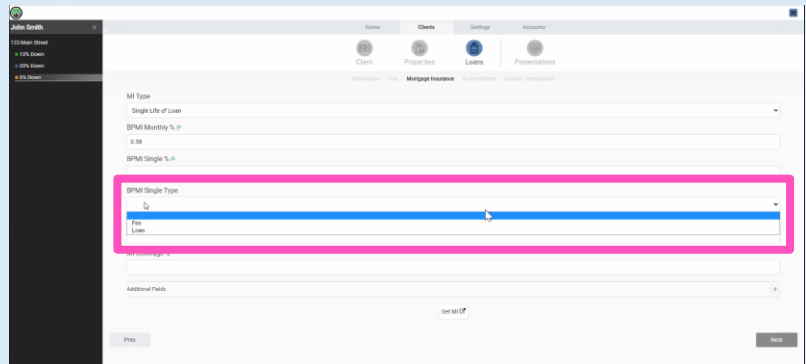

The pricing will return to the appropriate field based on the **MI Type** selected.

To change the **MI Type** you want pricing for, select the new value from the drop-down list.

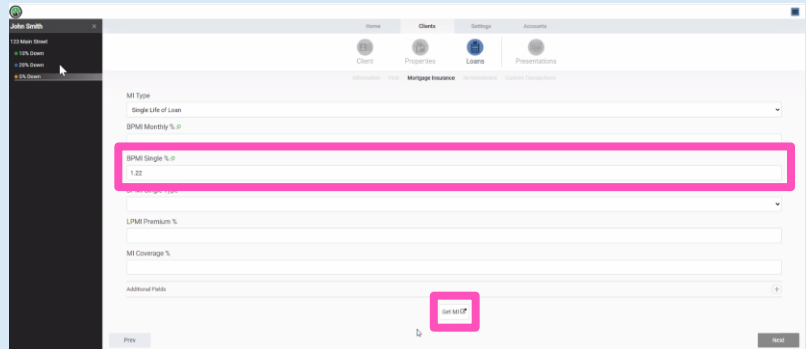

If you select **Single Life of Loan** for the **MI Type**, the default **BPMI Single Type** will be **Fee** (out-of-pocket). If you would like to finance the premium, select **Loan**.

Click the **Get MI** button to get updated MI pricing.

The pricing will return to the appropriate field based on the **MI Type** selected.

The agency standard coverage percentage will be returned. If you need a non-standard coverage percentage, you should enter the value in the **MI Coverage %** field.
