

The MGIC logo is positioned in the upper right quadrant of the page. It consists of the letters 'MGIC' in a bold, blue, sans-serif font. The background of the page is a photograph of a house with yellow siding and a white porch, partially obscured by a white, wavy-edged graphic element that frames the central text. A decorative border at the bottom of the page features a repeating pattern of semi-circles in various shades of blue and purple.

mortgage insurance

# Cancellation using original value

The Homeowners Protection Act of 1998 (HPA)<sup>1</sup> covers single-family primary residences whose sales were closed on or after July 29, 1999. HPA provides for borrower-requested cancellation and lender-required cancellation.

## Borrower-requested cancellation under HPA

Borrowers must provide a written request for MI cancellation to the lender, who cancels the MI policy:

- The date the mortgage loan balance is first scheduled to reach 80% of the original property value, based solely on the initial amortization schedule<sup>2</sup>, regardless of the outstanding balance of the loan OR
- The date the mortgage loan balance actually reaches 80% of the original value

For a purchase transaction, original property value is the lesser of the property sales price and appraised value. For a refinance transaction, original value is the appraised value.

Lenders can cancel MI coverage only if:

- The borrowers satisfy any lender requirements for evidence the property value has not declined and no subordinate liens exist AND
- The borrowers have a good payment history:
  - No payment 60 days or more past due during the 12-month period beginning 24 months before the date the mortgage loan reaches the cancellation date, AND
  - No payment 30 days or more past due during the 12-month period before the date the mortgage loan reaches the cancellation date

## Lender-required cancellation under HPA

The lender must automatically cancel the MI policy:

- The date the mortgage loan balance is first scheduled to reach 78% of original value, based solely on the initial amortization schedule<sup>2</sup>, regardless of the outstanding loan balance AND
- If the borrowers are current on the payments required by the terms of the mortgage

Different cancellation requirements apply to loans designated at origination as “high risk.”

# Cancellation using current value

HPA does not address MI cancellation using current value, but individual investors may.

Borrowers must request MI cancellation in writing and provide a current value estimate acceptable to their lender.

Fannie Mae and Freddie Mac typically require<sup>3</sup>:

- A loan seasoned at least 2 years, and
- The borrowers have an acceptable payment history, and
- The LTV based on a current appraisal is:
  - 75% or lower if fewer than 5 years have elapsed since the loan originally closed or
  - 80% or lower if more than 5 years have elapsed since the loan originally closed

Check other investors' MI cancellation requirements.

<sup>1</sup> Consult with your own counsel to assure compliance with the HPA.

<sup>2</sup> For ARM loans, the amortization schedule then in effect applies.

<sup>3</sup> Fannie Mae and Freddie Mac requirements were taken from their selling guides and are subject to change. MGIC does not warrant that this information is up-to-date. Refer to the respective Agency's selling guide for the most current MI cancellation information.
