

Guidance for Servicers in Response to the Coronavirus

MGIC is closely monitoring information about the coronavirus (COVID-19) provided by U.S. Centers for Disease Control and Prevention (CDC). We recognize the potential economic disruption this may cause, and the impact it may have on a borrower's ability to make their mortgage payments.

MGIC supports the recent guidance issued by both [Fannie Mae](#) and [Freddie Mac](#) to assist borrowers with hardship situations through our existing workout delegation. For non-GSE loans, you may also follow the GSE guidance.
