# Secure File Transfer!

## SECURE

Protect the privacy of information you send with our Secure File Transfer (SFT). We encrypt all data transmissions using the strongest available industry standards – Secured Socket Layer (SSL).

## FILE

Files are transferred fast. Send and receive any file type (e.g., PDF, XLS, DOC, etc.)

## TRANSFER & RECEIVE

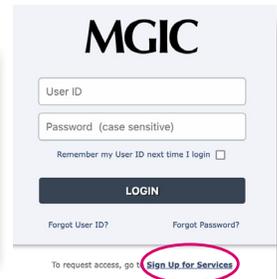

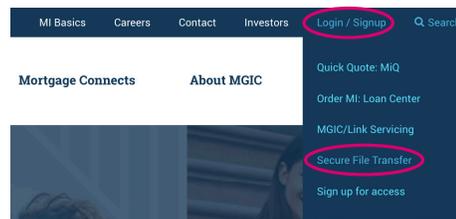

Take advantage of the technology you have and save time. No hanging around the fax machine or waiting for overnight delivery. Instead, send us documents securely in just seconds.

### 1. LOG IN

From [mgic.com](http://mgic.com), click **Login/Signup** in the upper right corner of the page. Select **Secure File Transfer** from the dropdown menu.

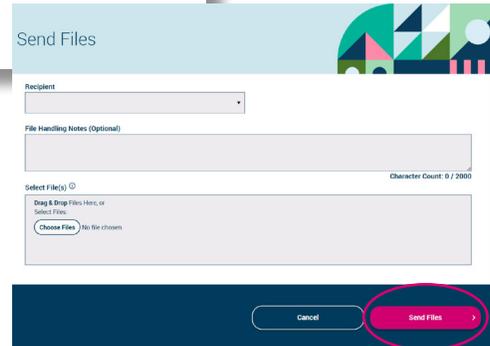

Then enter your **User ID** and **Password** (or click **Sign Up for Access** if you don't have a **User ID** and **Password**).

### 2. SEND FILES

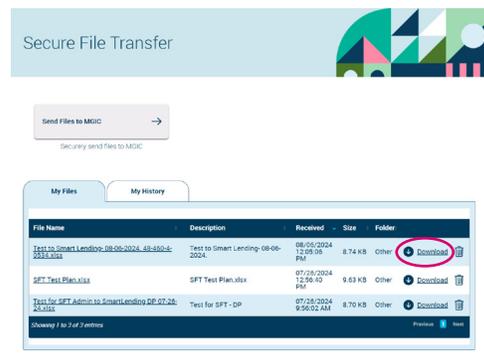

Click the **Send Files** button to open the **Send Files** page.

On the **Send Files** page, fill out the requested information, then click the **Send Files** button.

### 3. DOWNLOAD FILES

In the **My Files** tab, click the **Download** link next to the file you wish to download.

For more information, contact MGIC's Customer Service at [customer\\_service@mgic.com](mailto:customer_service@mgic.com) or 1-800-424-6442.
